< Notice of changes of AtoN numbers >

The Korea Hydrographic and Oceanographic Agency publishes the List of Lights and Fog Signals on the Coast of Korea annually and assigns new numbers to each AtoN when new AtoNs are installed.

Since many AtoNs have been newly installed due to the expansion of port construction, the numbers of these has been closely taken. Therefore for the convenience of users, KHOA allocated new numbers of AtoNs by sea area.

Please refer to the changed numbers as they will be reflected when a new edition of the List of Lights and Fog Signals is published around April 2020.

< Changes of AtoN numbers, existing numbers to be removed from the list>
